IS THIS AN OFFICIAL MURDER?

THE TRAGIC DEATH OF LIZZIE STEARN UNDER THE SHADOW OF BELLEVUE HOSPITAL.

The HERALD of yesterday briefly referred to the case of Elizabeth Stearn, who was conveyed in an ambulance from one of the station houses on Tuesday morning last to Bellevue Hospital, and, instead or being admitted there, was put on board the steamer Believue at the loot of East Twentysixth street to await transportation to the island, out, giving birth to a child on the vessel, died pefore the Bellevue lett the pier. A reporter yesterday proceeded to Bellevue Hospital and other points to ascertain full details, and if they are as he learns this case is another iliustration of

BECKLESS DISREGARD OF HUMAN LIFE entertained by some of the officials on the payrolls of the Commissioners of Charities and Correction. Coroner croker, who has the investigaon of the case, and has named Thursday, at Bellevue Hospital, as the time and place for such investigation, was unable to give any further details than that the woman had died as stated, and referred the writer to Keeper White, of the

Morgue, for the details.

President Bailey, of the Commissioners, aditted that the woman had died as stated, and read the reporter a special report made upon the case by Dr. Murray, house surgeon of Bellevue. This report, which sets forth an ugly condiof affairs in the management of transier of cases of this kind Believue and their treatment there, President Bailey declined to permit to be copied without the consent of the full Board. From the report, however, it appears that the woman ached the pier about two or half-past two A. M., in an ambulance; on account of the tide being some time was consumed in getting the woman on board. She was then placed on a couch in the cabin, when it was discovered that she was LIKELY TO SOON BECOME A MOTHER.

sent for, and this consumed about twenty minates' time. When he arrived, with a nurse from the hospital, the steam pipes were cold, the room in no condition for her treatment and no necesaries at hand. He at once sent to the hospital or these necessaries and nearly half an hour though the pier is within 100 yards of the abspital. In the meantime he made ner as comfortable as possible and gave her stimulants and medical attendance. She gave irth to a living child, and, beginning to sink rapidly, died about five o'clock in the cold cabin of the vessel tied to the pier. The Doctor, in his report, states that he was unable to account for

rapidly, died about five o'clock in the coid cabin of the vessel tied to the pier. The Doctor, in his report, states that he was unable to account for the sudden death of the woman, unless it was from the exposure to the coid—the hight being a severe one. The above is the substance of the suppressed report. Dr. Clark, cinic of the faculty, in norwarding the report, calls the attention of the Commission to the hecessity for having

A MATERNITY HOSPITAL.

It seems that about a year ago the wards devoted to obstetres were discontinued on the alleged ground that they were unneathly, and cases of this kind have since been sent to the Charity Hopital on Blackwell's Island for treatment. President Bailey states that since this report reached them the Board has taken steps to open such a hospital, but as yet they have not agreed apon a location, some of the members being in layor of having it in the Belevue building, while others want it located outside. The reporter visited Fellovue flospatal in search of Dr. Murray or the Warden for information. Both were absent, and for nearly two hours he sought in vain, from basement to garret, to find any one who represented Warden for information. Both were absent, and in a substitute for the day, Dr. Metcalf, knew nothing of the lacts. People crowded the office in search of an official and falled to find any one. After all other efforts and falled to find any one. After all other efforts and falled to find any one. After all other efforts mad falled to find any one and second avenue, where he tought he proceeded with an amoutlance to the station house corner of Fith street and second avenue, where he tought he was a serial and or and the woman in labor pains. She had been accompanied there by a young lemale friend, who was aware of her condition. He learned that the day belore she had been allowed to go out of the Charity Hospital, which she had entered for accompanied there are no accompanied there are no accompanied there are no accompanied the reports that she was not taken

ried on board by the watchman on the pier. He reports that see was not taken to Bellevue Hospital, because there are no cases of this nature treated there. In answer to the question whether the sure frequent cases of this kind occurring at sight he replied in the affirmative, and stated that one cold hight last winter one poor woman gave BIRTH TO A CHILD IN THE AMBULANCE under the charge of Surgeon Hathaway while being conveyed to the boat. He describes the night when he brought Lizzie Stearn to the boat is a very cold one, and expresses the pinnon that the boat is not a proper place for such cases, especially as at night there are no women in attendance upon it. Keeper Winte rep. Fis that the girl's mother resides at No. 88 Ridge street, where the deceased took tea on Monday evening, and then proceeded to the house of a female irrend at No. 48 Ridge Street, intending to spead the night there. Being Street, intending to spead the night there.

to the house of a female friend at No. 48 Endge street, intending to spend the night there. Being taken with labor pains, she was taken by this girl to the Seventeenth precinct station house, and our ambulance was sent lor. Sne arrived at the pier about half-past two A. M. The Commissioners and several weeks ago provided a warm room in the building on the pier, in which a bed was placed for such patients as await the departure of the boat. It seems that the boat instead. One of the officials reports that house Surgeon Murray assured Commissioner Brennan that he did not know of this room, and hence she was treated on the cold and cheeriess steamer, where she died in the gray of the morning. The officials report that the girl bore a bad character. This is her second child, although aver married, and only twenty-one years of age. A year ago last November she was confined or a child in Bellevue 'chospital. It is said her mother is too poor to give her interment, and she was yesterday buried in Potter's Field by the charrity authorities. The child is still living, and is cared for in Bellevue Hospital.

yesterday buried in Potter's Field by the charity authorises. The child is still living, and is cared for in Believue Hospital.

The wharf master, on being informed of the nature of the report of Dr. Murray, denied that the fire on the boat was out. He asserts that hot air is kept on all night in the cabin, out they had no business to place her on board, as apartments are provided in the nouse on the pier for such cases.

Where is the responsibility?

This is the question that the jury must answer, if the facts are as stated to the reporter by vanous persons more or less lambiar with the circumstances, the facilt, in the first place, lies with the physician in the Charity Hospital, who permitted the woman to leave on a pass when so near her confinement; in the second place, with the ambulance surgeon, who ought to have known of the existence of the room in the building on the pier for the reception of such cases, and third with Dr. Murray, who did not remove her to this room from a coid, bleak cabin, which, if his own report be true, was unfit of the housing of a person to grow a beath. The fact that accommodations had been set apart in the building on the pier for cases of this kind was known in every newspaper pffice in this city weeks ago and published in the papers, yet it would appear that the nouse surgeon of Bellevue Hospital, Dr. Murray, the ambulance surgeon, Dr. Morreil, and the watchman on the pier only discovered it last Thesday morning, when it was too rate to repair their blunder. There is certainly an opportunity here blunder. There is certainly an opportunity here presented for Coroner Croker to teach these officials a lesson as to their duties.
